what happens when our developed knowledge does not support human activities in politics economy culture and infrastructure today the solution lies in knowing what wisdom is and willingly applying it to most of humanity's activities transforming a chaotic civilization into a wise one a merely knowledge rich society cannot sustain its civilization without being wise and willing to learn and apply this essential human virtue in practice this book investigates the issues of human cognition with regards to current issues surrounding globalization and civilization in such a way as to define wisdom not only as an art but as a science too its investigation emphasises the learning of wisdom at schools and colleges and stresses that its application in practice should be as commonplace as arithmetic

modern civilization faces a broad spectrum of daunting problems but rational solutions are available for them all this book explores the following issues 1 threats to the environment and climate change 2 a growing population and vanishing resources 3 the global food and refugee crisis 4 intolerable economic inequality 5 the threat of nuclear war 6 the military industrial complex and 7 limits to growth these problems are closely interlinked and their possible solutions are discussed in this book

this handbook provides an in depth finding on the harappan civilization indus civilization sarasvati sindhi sindhu sarasvati civilization that flourished from 2600 1900 bce in the greater indus region it presents the emerging perspectives of the harappan civilization and includes the results from the recent excavations in south asian sites the book begins with the evidence on settled human life the factors that led to the domestication of plants and animals and the cumulative effect on the triggering of urban processes it highlights the evidence of the emergence of towns and villages aided by the technology of copper and trade in different parts of the greater indus region ultimately culminating in the harappan civilization it illustrates the hallmark features of the harappan civilization and recent findings it updates the latest knowledge on topics like the script and the people the ultimate transformation into a rural culture again mainly due to climatic changes it presents the scientific techniques and methodologies employed in investigating the past particularly the harappan civilization it enables the students to pursue similar lines of research in the ever growing field of applying sciences in archaeology the richly illustrated book with maps and photographs assists researchers and scholars in understanding the archaeological facts and information related to the harappan civilization

in 70 000 years we have reshaped earth's biology twice first we killed all the megafauna on the planet and then we planted and domesticated everything including ourselves we upgraded ourselves from believing to knowing dethroned god and did put ourselves on the throne inherited the earth and a responsibility that we and our closest ancestors have never taken seriously we have enough to eat and no one eats us anymore our only enemy is our own lack of knowledge of who and what we and our neighbors really are we need a revolution so that we can learn that there is space and need for everyone and that there is really nothing to be afraid of we need an educational revolution

come face to face with our ancestors travel back 8 million years with evolution the human story and go on a fascinating journey to discover how our species has developed from tree dwelling primates to modern humans this is the first time that the story of evolution has been documented in such amazing visual detail thanks to the work of renowned dutch paleoartists kennis and kennis staggeringly realistic cgi and model reconstructions from original fossils bring us face to face with our ancestors portraying them as never before plus dr alice roberts shares her extensive knowledge helping answer all the big questions and more evolution the human story is packed with all the latest discoveries and profiles every human ancestor to date from ardipithecus ramidus to homo neanderthalensis an essential read for anyone fascinated in finding out where we come from now available in ebook pdf format

based on the idea that communication technologies are a primary shaping force of civilizations five epochs of civilization presents a new scheme of world history it identifies five epochs of historical experience and associates each with a civilization focused on particular institutions these are civilization i focused on government ending in large political empires civilization ii focused on religion ending in the three world religions civilization iii focused on commerce and education within the nation state civilization iv focused on the media of news and entertainment civilization v focused on the internet and beyond the communication technologies which triggered these changes in culture and their approximate dates of introduction include ideographic writing 3100 b c alphabetic writing 800 b c printing 1450 a d electronic recording and broadcasting 1920 a d and computer networks

1990 a d mcgaughey includes separate narratives for each of the four civilizations that have appeared to date in a developed form plus imaginative and plausible speculations concerning a possible fifth computer based civilization
