providing the most comprehensive examination of the two way traffic between literature and psychoanalysis to date this handbook looks at how each defines the other as well as addressing the key thinkers in psychoanalytic theory freud klein lacan and the schools of thought each of these has generated it examines the debts that these psychoanalytic traditions have to literature and offers plentiful case studies of literature s influence from psychoanalysis engaging with critical issues such as madness memory and colonialism with reference to texts from authors as diverse as shakespeare goethe and virginia woolf this collection is admirably broad in its scope and wide ranging in its geographical coverage it thinks about the impact of psychoanalysis in a wide variety of literatures as well as in film and critical and cultural theory

the work focuses on the practical and philosophic sides of performance set within the context of beckett's own aesthetic theory his fiction and poetry as well as a history of the critical and scholarly studies of his work winner of the bucknell university press award

in a draft attached to a letter to his friend and confidante wilhelm fliess may 31 1897 freud develops an idea the mechanism of fiction is the same as that of hysterical fantasies he supports this thought with a brief analysis of the biographical sources of goethe's werther a few months later on october 15 1897 freud mails fliess a detailed account of remembered events from his childhood that freud believed underlined the universality of oedipus rex and hamlet freud's foray into literature initiated the beginning of a new critical approach in essential papers on literature and psychoanalysis emanuel berman presents classic and contemporary papers written at the intersection of literature and psychoanalysis in bringing these essays together berman traces the development of a discipline that has often been plagued by a polarization between self-confident single-minded psychoanalysts reading literature as a series of case studies and literary loyalists who cling to manifest content or to the declared intentions of the authors accepting them at face value and depriving the work of its emotional complexity berman covers the full range of old and new perspectives and presents selections from today's mature phase this collection includes papers by sigmund freud steven marcus patrick j mahoney donald spence otto rank ernest jones ernst kris phyllis greenacre florence bonime and maryanne eckardt david werman ellen handler spitz jacques lacan shoshana felman norman n holland roy schaffer meredith anne skura gail s reed francis baudry rivka r eifermann and bennett simon

ever since the first appearance of proust in 1931 samuel beckett has responded extremely ambivalently both praising and belittling his subject captivated by his occasionally contagious enthusiasm for it beckett's own critics have praised proust as the ideal guide to both its subject and its author creating the myth that their concerns are somehow one and the same nicholas zurbrugg's work itself virtually a trilogy of critical studies offers a timely antidote to this confusion he begins by reassessing the proustian vision before considering beckett's proust when he examines the evolution of this essay with particular reference to beckett's own annotated copies of the work finally he reassesses beckett's fictional vision arguing that its peculiarly anti proustian character may be traced from his first unpublished novel dream of fair to middling women to company and his most recent writing of the 1980s

seminar paper from the year 2001 in the subject english language and literature studies literature grade 1 7 university of regensburg institut für anglistik und amerikanistik course proseminar from modernism to postmodernism 10 entries in the bibliography language english abstract this piece of work deals with the question whether beckett's endgame is a continuation of waiting for godot in order to answer it both plays will be compared to work out similarities as well as differences godot will function as a basis and startingpoint for interpretation that will then turn towards endgame for comparison to come to a conclusion main features of the drama such as plot setting characters action language and time will be involved in this procedure of analysis to a certain

extent this approach towards the two plays will also be related to the historical context of postmodernism and the philosophical background of existentialism as well as to characteristics of the theatre of the absurd or the expressionist theatre
